

The Neighborhood Christian Clinic

1929 W. Fillmore, Building C

Phoenix AZ 85009

www.TheChristianClinic.org

Effective: April 1, 2011

The below is information about obtaining care and associated fees at TNCC – **READ CAREFULLY**

MEDICAL CLINIC

- First time patients may not make appointments. Whoever is present in the waiting area 30 minutes after Clinic doors open and 30 minutes prior to the Clinic seeing patients will receive a number for a random drawing. Based on the number of providers available that day, a certain number of “walk-ins” may be accepted but no visit is guaranteed. Those with a “lower priority” number in the drawing will be told immediately that they will not be seen and advised to come back at another time/day or to seek care at another Clinic. Information of other Clinics is available.
- Established patients may “walk in” to set an appointment for another day or become part of the drawing for the day they arrive. Limited staffing prohibits telephone calls from being accepted.
- Established patients needing medication refills must complete the refill form, pay an admin fee and return in three days to receive medications
- Constituents of Neighborhood Ministries may contact a Neighborhood Ministry staff member for access to Clinic care

DENTAL CLINIC

- New patients that have pain, infection or swelling must first be seen by the Medical Clinic for assessment. A referral will be made to the Dental Clinic if appropriate and the patient will be added to a “wait” list.
- New patient demand is so high for dental care that the Dental Clinic is not able to accept new patients. Patients may add their name to a list, but there is no assurance they will be seen.
- Established Dental patients may contact the Dental Clinic for appointments
- New and established Dental patients without appointments may participate in a random drawing similar to what is outlined above for the Medical Clinic.

MISCELLANEOUS

- Those unable to be seen will be given information for other Clinics or may return another day

QUALIFICATIONS

- Only patients who do not have health insurance (medical or dental); or do not qualify for AHCCCS are eligible for treatment at the Clinic

CLINIC FEES

- TNCC is not a free Clinic. Standard charges are listed below. See expanded fee schedule for greater detail.
