Information about seeking care at *The Neighborhood Christian Clinic* – **READ CAREFULLY**

MEDICAL CLINIC

- First time patients cannot make appointments but must arrive 60 minutes prior to Clinic hours to be added to a waiting list to be treated on a first come, as available basis. Urgent/critical patients may be treated out of order ahead of patients who might have arrived earlier.
- Established patients needing an appointment may call an appointment line from 10:45-11:00AM Mon/Thu; or “walk-in” during Clinic hours.
- Established patients needing medication refills must complete the refill form, pay the fee and return in three days
- Constituents of Neighborhood Ministries may contact a Neighborhood Ministry staff member for access to Clinic care

DENTAL CLINIC

- New patients with urgent dental needs: patients who have urgent dental needs must first be seen by the Medical Clinic for assessment. A referral will be made to the Dental Clinic if appropriate.
- New patients: demand is so high for non-urgent dental care that the Dental Clinic is not able to accept new patients. Patients may add their name to a list, but with no assurance they will be seen.
- Established Dental patients may contact the Dental Clinic for appointments
- New and established Dental patients may arrive just before Clinic hours to wait for a possible appointment in the event of a “no show”

MISCELLANEOUS

- Patients who are unable to be seen will be given information for other Clinics or may return another day

QUALIFICATIONS

- Only patients who do not have health insurance (medical or dental); or do not qualify for AHCCCS are eligible for treatment at the Clinic
