

The Neighborhood Christian Clinic

restoring health

restoring lives

The Neighborhood Christian Clinic is a 501(c)(3) non-profit medical and dental clinic located in central Phoenix that opened for patient care in 1999. Organized by a group of staff and volunteer healthcare professionals, we exist simply to:

1. provide medical and dental healthcare services to the uninsured, underserved community
2. share the Gospel and love of Jesus Christ with interested patients and colleagues, and
3. train & equip healthcare professionals to share the Gospel & love of Jesus Christ in their daily practice.

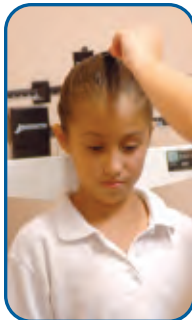

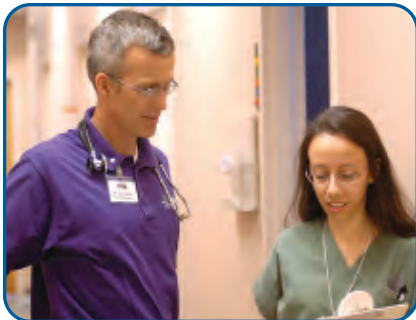

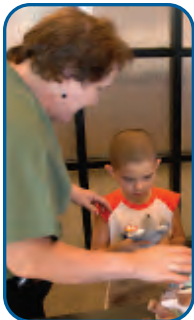

*For I was hungry and you gave me food,
I was thirsty and you gave me drink,
I was a stranger and you welcomed me,
I was naked and you clothed me,
I was sick and you visited me,
I was in prison and you came to me.*

Matthew 25:35-36

sharing God's love

There are over half a million people in Phoenix neighborhoods who do not have the means to obtain for themselves primary or specialty medical and dental care. Each year the clinic performs **thousands of medical and dental visits**, dispenses medications, provides on-site, comprehensive laboratory testing and ultrasound examinations, offers free referrals to radiology centers for basic x-ray and barium studies as well as to our volunteer network of over forty specialists, provides comprehensive diabetic care, and maintains on-site clinics in dermatology, gynecology, and chiropractic care.

Volunteers & Support

Because of the volunteer efforts of many healthcare professionals and interpreters, and the financial donations of others, we are able to provide all of these necessary services at a **cost to the uninsured patient of only \$20** per visit.

However, the pressing demand for patient care greatly exceeds the current capacity of the clinic. The hard fact is that **daily we are forced to turn away families and individuals seeking our care**. Volunteers are needed to help staff the clinic for additional hours and to see more patients.

The clinic staff encourages interested healthcare professionals including primary care and subspecialty providers, dental professionals, nurses, pharmacists, and interpreters to tour the clinic by calling (602) 258-6008 ext. 722 or emailing: volunteer@tnclinic.org

Most people are unaware of the fact that the state of Arizona permits us to redirect a portion of our tax dollars to a qualifying charity, thus allowing us to give to charitable organizations out of the tax dollars that we already pay.

- Current Arizona tax code allows for charitable donations of up to \$400 for married taxpayers filing jointly and up to \$200 per taxpayer filing as single to be **redirected to a qualifying charity** and returned to the taxpayer not as a deduction but as a credit!
- This means that taxpayers filing in Arizona have the unique opportunity to actually redirect a portion of the state tax dollars they already pay into charitable channels at **no additional financial cost** to themselves!
- With over 500,000 people living in Phoenix neighborhoods who have no means to obtain primary or specialty medical or dental care, surely this is a **tax benefit** we should not allow to go unused.
